## Stations of the Cross for Peace | 7.30pm Every Friday during Lent

*"Peace is not simply the absence of war, but a general condition in which the human person is in harmony with him/herself, in harmony with nature and in harmony with others. This is peace. Nevertheless, silencing weapons and extinguishing the hotbeds of war is an inevitable condition to begin a journey that leads to peace in its various aspects. I think of the wars that still cause bloodshed in too many regions of the planet, of the tensions in families and in communities — but in many families, in many communities, in parishes too, there is war! — as well as heated disputes in our cities and towns between groups of different ethnic, cultural and religious extraction. We must convince ourselves, despite every appearance to the contrary, that harmony is always possible, on every level and in every situation. There is no future without proposals and plans for peace! There is no future without peace!"*
